ARTE BY ANTONIO CITTERIO LAUNCHES SALES IN MIAMI'S EXCLUSIVE SURFSIDE NEIGHBORHOOD

Arte by Antonio Citterio has announced its highly anticipated launch of sales in Miami's exclusive Surfside neighborhood. Arte, which features 16 ultra-luxury residences located on an acre of pristine beachfront, rises 12-stories and is the most prestigious offering to debut in the world-class destination and is the first project in the United States by Italian master architect Antonio Citterio. As one of the most celebrated talents in architecture today, Citterio is the visionary behind the highly regarded Bulgari and Mandarin Oriental hospitality projects in Dubai, London, Milan and Bali. His new oceanfront condominium offers a rare and limited opportunity to own at one of his few residential designs in the world. Arte is located at 8955 Collins Avenue in Surfside, a coveted area nestled north of bustling Miami Beach and between exclusive Indian Creek, Bay Harbor Islands and fashionable Bal Harbour. Lauded as the next great American Riviera, Surfside is at the center of the city's most vibrant cultural, culinary and shopping destinations.

"We are excited to be the first to introduce Antonio Citterio's work here in the U.S. with Arte," said Alex Sapir, Chairman of Sapir Corp LTD, whose Israel and New York-based subsidiary, SC 8955 LLC, is focused on luxury real estate and is developing the project. "The level of design, finish and detail that went into the building is unprecedented in the Miami market. Antonio is very creative and thoughtful in his work, and we feel his sophisticated aesthetic will be well received by buyers and the community."
